Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters on the stock market:

Marshail Spader & Co., New York say:

"The market opened with selling pressure in many directions this morning as a result of a partial change in sentiment brought about by yesterday's reaction and wave of realizing. The first effect was noted in the tractions, with the same reflection in the Coppers, Rock Island and the Harrimans. Call money ranged from 8 to 12 per cent. While we don't expect positive ease in the money market until the turn of the year, there should be no recurrence to decided stringency, except of a most temporary character, during the next few weeks."

Dick Bros, New York, say: "Market opened rather weak and showed general declines in the first hour today, but good support was given it and before moon it had regained its strength. Later there was a renewal of aggressive buying and starp advances were scored all through the list, particularly by Union Pacific, Amalgamated and Brooklyn Rapid Transit. Specialties of all sorts were also bid up sharply, the most conspicuous being People's Gas, which went to 129 with a rush."

T. A. Meintyre & Co., New York, say:

rush."

T. A. McIntyre & Co., New York, say:

"Rock Island has declared a dividend of

Its per cent, payable January 3. This is
the parent company. This compares with

a dividend of 2 per cent declared in December, 1991. The directors unanimously
declared that the January dividend on
preferred stock of Rock Island should be
passed. The payment of 1½ per cent dividend on the Rock Island leaves surplus
net carnings for the five months of \$82,
60."

Logan & Bryan, New York, say: "Market closed strong and higher. Just for a moment after the opening the long-looked-for reaction seemed to be setting in, but the low point evidently looked attractive enough to invite a flood of fresh buying orders, with market recovering rapidiv. The volume of business has again been heavy, all departments being active. Money rates were not disturbing. It still seems advisable to keep stop orders back of long stocks."

Another Big Consignment of Holly and Evergreen Comes to City Friday.

PART OF STOCK WILL BE SHIPPED AWAY

Ten Thousand Dollars' Worth of Greens Brought Here This Year.

It may be a surprise to many Salt Lakers, but a leading wholesale dealer said yesterday that at least \$19,000 worth of holly, Christmas trees, festooning and mistletoe had been or would be unloaded on this market before the close of the holiday season. Not all of it will be used in this city, to be sure, part of it going to the surrounding cities and towns. But many may think that \$10,000 is a good deal to expend for decoration in a brief week in a city the size of Sait Lake.

Cranberries are holding out much better than the dealers thought they would carlier in the season, and it is believed there will be plienty for the Christmas trade. Some dealers, however, have only a few barrels on hand, and, should their patrons take a fancy all at ones to make a run on cranberries, they would be in sore straits for the Christmas trade.

Celery also is much better just now than it was for several days. The stakes are small, but the celery is white and crisp, and there seems to be no doubt but that the supply will last until the new year. to the surrounding cities and towns. But

# INACTION MARKS

Market Drags Through the Day With Narrow Range in Prices.

CHICAGO, Dec. 15,-Without an item of news that would stimulate action for either bulls or bears, the wheat market dragged through the day, prices being confined within a range of one-half. Sentiment was inclined to be bearish, but small demand by leading bulls was suffi-

small demand by leading bulls was sufficient to hold the sellers in check.

A message from an English crop statistician claimed that the wheat crop of Argentina is in good condition, and that while some damage had been done by rains, the late sown wheat had been benefited by moisture. Weather in the Northwest was favorable for the movement of the crop, but despite this fact arrivals at Minneapolis and Duluth were less than for the corresponding day of last week or of last year.

The market was steady at the close. May opened a shade to be lower, at 18% to 16%, sold between 85% 68% c and 50% c, and closed unchanged, at 85% c. The corn market was firm, although the volume of bosiness was exceedingly small. The market closed firm, with May 14% c up, at 44% c. Sentiment in the oats pit was slightly builtsh. May closed 160% c up, at 32% c. Local packers gave some support to the prevailing market, and consequently the feeling in the pit was steady. At the close May pork was up 24c, lard was unchanged and ribs were up 24c.

Dun on Trade Conditions.

NEW YORK, Dec 15.—Dun's Weekly Review of Trade tomorrow will say:

"Hollday trade has become the principal feature commercially, retail sales surpassing all records, while it has been necessary to place liberal supplementary orders. Yet this activity in specialities detracts little from the steady movement of staples, and in jobbing and manufacturing departments there is unprecedented preparation for the spring season.

"Little machinery is idle, and the outlook for the future is brightened by sex-

erai announcements of higher wage scales to become effective January 1. Building activities are scarcely retarded by the advancing season, new permits being constantly granted and dealers in some materials find their stocks nearing exhaustion. Railway carnings steadily show gains over last year's figures for December, thus far exceeding those of 1960 by 44 per cent.

"Foreign commerce for November made a much better exhibit as to exports than was expected, partly because of the outgo of breadstuffs, which surpassed all monthly records for over two years. At this port for the last week all exports were valued at 23 50,342 more than a year ago, while imports decreased \$1,46,699.

"Hides are remarkably sustained, considering the seasonable deterioration in quality and the liberal receipts of cattle.

"Failures this week numbered 229 in the United States, against 28 last year and 27 in Canada, compared with 25 a year ago."
